WHY USE VIDEO CONVERTER

The V2V-MPC connects to older devices via HDMI, converting video content for optimized performance and picture quality. The converter is easy to use and enhances visuals and audio automatically, so set-up is simple and hassle-free. The V2V-MPC also features a USB connector which automatically plays videos from flash-drives and similar devices. With a wide range of device connectivity and refined media output, the V2V-MPC is the best way to make the most out of aging AV equipment.
