- Banking Network
- Insurance Data Centers
- Transit Management
- Industrial Operation
- Intelligence Communications

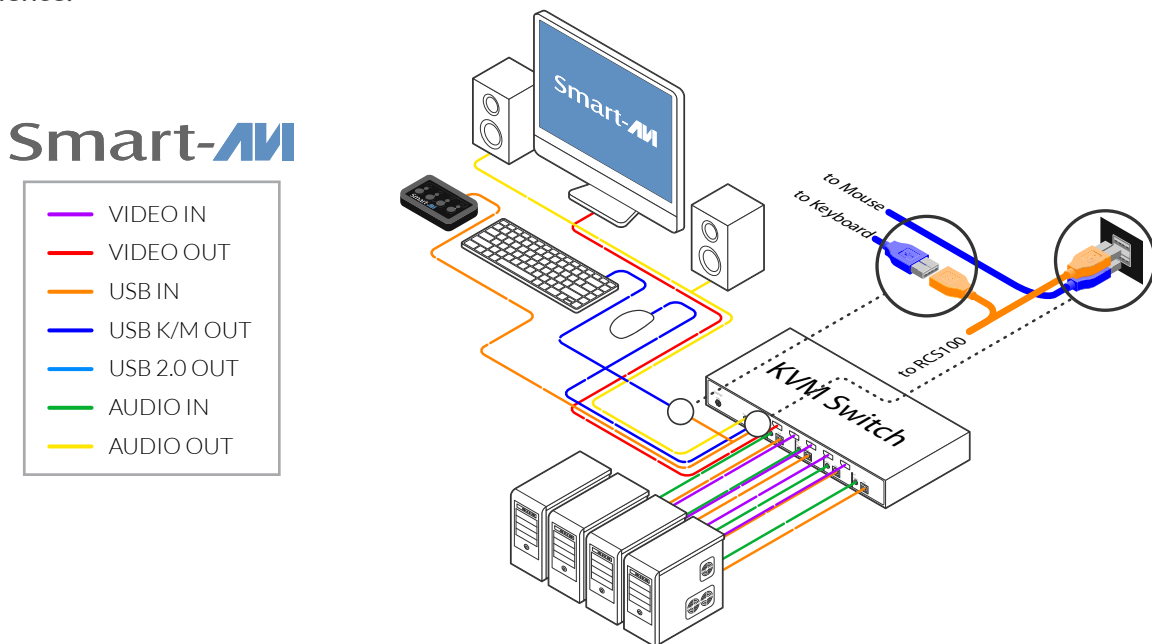

Designed and Manufactured in the USA

OVERVIEW

The SmartAVI KVM Remote Control revolutionizes the KVM user experience by reducing workspace clutter and enhancing functionality. By allowing the KVM unit to be neatly placed away from the user's desk, it significantly declutters the workspace.

This remote control features a convenient USB connection for keyboard or mouse integration, making it easy to use. It provides a clear and simple way to switch channels and visibly see the channel position, ensuring effortless control.

No need for third-party solutions or programming headaches. The SmartAVI KVM Remote Control is plug-and-play, compatible with both SmartAVI's secure and commercial KVM switches, providing a seamless and efficient user experience.
